| MATRIX                        | Service Bulletin  Matrix TreadMill Tread Sense function is released |                 |  |
|-------------------------------|---|-----------------|--|
| Effective Date: Nov. 10, 2014 | Models Affected:  | Bulletin Number |  |
| Prepared by: Eric Chen        | All Matrix Treadmills; T5x, T7xe, T7xi                              | NB-1411010      |  |

# **SYMPTOM**

A belt stop feature called "Tread Sense" will be released on all Matrix treadmills.

If no footfalls or user interactions with the console are measured, a warning message will display on the console.

A 10 second countdown will begin and the belt will stop, ending the program.

# **REASON**

The "Tread sense" function is to give club owners more control over how a treadmill operates.

# **SOLUTION**

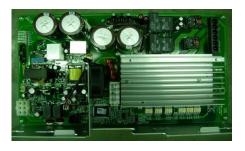

- 1. The UCB and MCB software version combinations with tread sense and serial number breaks are in Table 1. The "Tread sense" function is supported with Delta MCB only.
- 2. The new application is available for the T7xi, T7xe, and T5x from Sep., 2014.
- 3. The new application will be available for the T3x and T1x. Please watch for additional information.

| Timeframe                                 | These two Delta MCBs are with "Tread Sense" function already. |                                      |                                      |   |                                     |  |                                      |

Belt Stop\*: T7xi console shows "belt stop" now and it will be revised to "Tread Sense" next version.

Delta MCB (Part number #0000094477) with "Tread Sense" function:

1 | Revision Date: 12.10.2014 | Revised by: Emilie McWilliams

4. How to set up the "Tread Sense" function.

There are 4 options to set up the tread sense: Off, 30 seconds, 60 seconds, and 90 seconds. Default is 30 seconds.

# T7xi:

Step 1: Enter Service Mode by pressing 'enter, 3, 0, 0, 1, enter'.

Step 2: Select 'Workout'.

Step 3: Select 'Belt Stop'.

Step 4: Set up time for "Tread Sense" function.

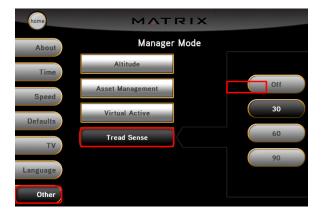

#### T7xe:

Step 1: Enter manager mode by pressing 'enter, 1, 0, 0, 1, enter'.

Step 2: Select 'Other'.

Step 3: Select 'Tread Sense'.

Step 4: Set up time for "Tread Sense" function.

### T5x:

Step 1: Press & hold INCLINE DOWN and SPEED DOWN keys to enter manager mode.

Step 2: Select 'Tread Sense'.

Step 3: Set up time for "Tread Sense" function.

5. When Tread sense is "ON", how to do the running test after the installation?

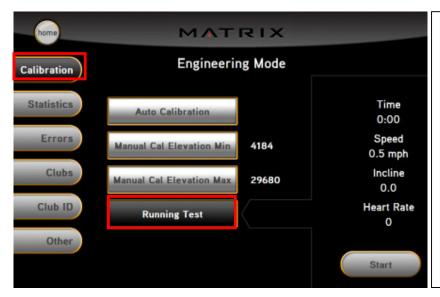

To solve the installing issue like adjusting the belt, JHT has added a "Running test" function on the engineer mode, which allows installers to do the belt adjustment and test. Also this function will not stop until press Stop or exit the mode, it will provide customer for demonstration and other functions.

#### T7xi:

Check and set up "Running Test" function.

- Step 1: Enter Service Mode by pressing 'enter, 3, 0, 0, 1, enter'.
- Step 2: Select 'Calibration'.
- Step 3: Select 'Running Mode'.
- Step 4: Select 'Start' to run the belt.

### T7xe:

Check and set up "Running Test" function.

- Step 1: Enter Engineering mode by pressing 'enter, 2, 0, 0, 1, enter'.
- Step 2: Select 'Calibration'.
- Step 3: Select 'Running Test'.
- Step 4: Select 'Start' to run the belt.

#### T5x:

Check and set up "Running Test" function.

- Step 1: Press & hold INCLINE DOWN and SPEED DOWN keys to enter Engineering mode.
- Step 2: Select 'Running Test'.
- Step 3: Press go key to run the belt.
