Description	The top-of-the line Touch console is loaded with features, including High Definition Virtual Active™ workouts through stunning destinations like the Northern Rockies and the American Northeast in high definition. The 10" touch-screen display offers 17 pre-programmed workouts, as well as iPod and iPhone connectivity, workout tracking through Nike Plus, and heart rate training with the included Polar® chest strap and wireless receiver. For added convenience, charge your USB devices right from the console while you work out.	The Elegant console features an advanced full-color LCD screen and 13 programs, including the acclaimed Sprint 8® workout. Easily control resistance with one-touch quick keys, and wirelessly monitor your heart rate using the included chest strap. For added convenience, charge your USB devices right from the console while you workout.	The Classic console was designed with one goal in mind - to get you started on your workouts right away. The extra-large display makes feedback easy to view. Choose from one of five preset workout programs or go at your own pace using the in-reach controls. Built-in contact grips and a wireless receiver are available for heart rate monitoring. For added convenience, charge your USB devices right from the console while you workout.
