Description	The top-of-the-line Touch console is loaded with features, including high-definition Virtual Active™ workouts through stunning destinations like the Northern Rockies and the American Northeast in high definition**. The 15.6" touchscreen display offers 19 pre-programmed workouts, as well as iPod® and iPhone® connectivity, workout tracking through Nike + iPod® and heart rate training with the included Polar® chest strap and wireless receiver. For added convenience, charge your USB devices* right from the console while you work out.	The Elegant treadmill console features an advanced full-color LCD screen and 15 programs, including the acclaimed Sprint 8® workout and two Virtual Active™ workouts**. Easily control speed and elevation using the one-touch quick keys, and wirelessly monitor your heart rate using the included Polar® chest strap. For added convenience, charge your USB devices* right from the console while you work out.	The Classic treadmill console was designed with one goal in mind – to get you started on your workouts right away. The extra-large display makes feedback easy to view. Choose from one of five preset workout programs or go at your own pace using the in-reach controls. Built-in contact grips and a wireless receiver are available for heart rate monitoring. For added convenience, charge your USB devices* right from the console while you work out.

* Will not charge USB devices that require more than 1 amp

** The two Virtual Active locations will vary
