ASSEMBLY GUIDE

TOOLS & PARTS INCLUDED

- 5mm T-shaped Wrench
- 4mm L-shaped Wrench
- 17mm/15mm Pedal Wrench
- Screwdriver

PARTS BOX
- Pedals, Qty: 2
- Power Supply, Qty: 1
- Water Bottle & Cage, Qty: 1
- Color-coded Hardware Bags
- Assembly Guide

HARDWARE INCLUDED

- PINK BAG
  - M8 x 25L Bolt: Quantity: 2
  - M8 x 70L Bolt: Quantity: 2
  - SW8 Lock Washer: Quantity: 4
  - SW8 Lock Washers: Quantity: 6
  - M8 x 15L Bolt: Quantity: 4
  - M8 x 20L Bolt: Quantity: 2

- BLUE BAG
  - M6 x 55L Bolt: Quantity: 4
  - M8 x 10L Set Screw: Quantity: 1
  - M8 x 20L Bolt: Quantity: 6
  - SW8 Lock Washers: Quantity: 6
  - M6 x 12L Bolt: Quantity: 6
  - SW8 Lock Washer: Quantity: 6

- ORANGE BAG
  - M8 x 70L Bolt: Quantity: 4
  - SW8 Lock Washer: Quantity: 4
  - M8 x 25L Bolt: Quantity: 2

STEP 1
- Slide the rear foot into place on the frame. Secure the foot in place with two bolts (M8x25L) and two lock washers (SW8) to the outside holes and with two bolts (M8x70L) and two lock washers (SW8) to the inside holes. Tighten with the T-shaped 5mm wrench.

STEP 2
- Locate the seat rail adjustment lever on the right side of the seat frame. Remove the socket head bolt from the front hole in the lever. Rotate the seat lever into alignment on the bracket. Reinsert the socket head bolt and tighten both bolts with the 4mm L-shaped wrench.

STEP 3
- Take the seat frame handlebars and connect the heart rate wires exiting its center to the heart rate wires coming from the seat frame. Mount the seat frame handlebars to the rear set of holes with two bolts (M8x20) and two lock washers (SW8). Tighten with the 5mm T-shaped wrench.

STEP 4
- Set the seat bottom support onto the main seat frame so that the rear set of holes line up over the front set of holes on the handlebar bracket. Secure in place with four bolts (M8x15L) and four lock washers (SW8). Tighten with the 5mm T-shaped wrench.

STEP 5
- Mount the seat bottom cushion to the seat bottom support with four bolts (M6x55) and four lock washers (SW6). Tighten with the 4mm L-shaped wrench.

STEP 6
- Take the seat tilt adjustment lever and slide it in place over the seat tilt adjustment block, making sure the handle of the seat tilt adjustment lever is pointing up. Tighten the two set screws in the seat tilt adjustment lever bracket using the 5mm L-shaped wrench.

STEP 7
- Slide the frame of the mesh seat back into the seat frame. Secure using six bolts (M6x12) and tighten using the 4mm L-shaped wrench.

STEP 8
- Slide the console mast cover onto the console mast.

STEP 9
- Use the wire tie coming from the bottom of the console mast to wrap around the wire harness and heart rate wires that are sitting in the frame bracket.

STEP 10
- Pull the wire tie up through the console mast so the wire harnesses and heart rate wires are in front of the console.

STEP 11
- Slide the bottom of the console mast over the frame bracket. Insert a set screw (M8x10L) to the front edge of the mast and tighten until snug with the 5mm T-shaped wrench. Use the T-shaped 5mm wrench to secure the four bolts (M8x15L) and four lock washers (SW8) to the sides of the console mast bracket.

STEP 12
- Mount the console mast handlebar to the console mast with two bolts (M8x20) and two lock washers (SW8). Tighten with the T-shaped 5mm wrench.

STEP 13
- With a screwdriver remove the four mounting screws from the backside of the console. Connect the heart rate wires and the wire harness to the pin connectors on the backside of the console.

STEP 14
- Mount the console to the console mast using the four mounting screws and the screwdriver.

STEP 15
- Slide the console mast cover into place so it integrates with the side covers.

STEP 16
- Mount the water bottle cage to the console mast with the screws located on the console mast.

NOTE:
- It is recommended that you apply grease to the threads of each bolt and screw as you assemble your Fitness Bike to prevent loosening and noise. Also, during each assembly step, ensure that all bolts and screws are in place and partially tightened before completely tightening any ONE bolt or screw.

CONSOLE
- Refer to Product Selection and Model Configuration decals on the console. Press one of the function keys to turn on the console. Use the Plus/Minus buttons to adjust the resistance level, and press one of the function keys to turn the console off.

CONSOLES
- SIMPLE
- DELUXE
- PREMIER

PEDALS
- Attach left pedal strap to left pedal and right pedal strap to right pedal.

PEDALS
- Slide the right pedal into the right crank arm and left pedal to left crank arm. Tighten with the 15mm pedal wrench.
